

DR. HYATT SWITCHING ON PROGNOSTICATION

Predicts Snow for a Week, and Then Gets Off Onto Rain.

FRIDAY TEMPERATURES.

Minimum	29 degrees.
Maximum	40 degrees.
Mean	34.5 degrees.
Above normal	11 degrees.

Forecast: Saturday, probably rain or snow and colder.

Whether Dr. Hyatt is trying to fool the people or whether the meteorological phenomena are trying to fool him, is a question which the doctor himself can best answer. For over a week he predicted snow every day and then he decided it could not snow and so he began to prognosticate rain. Well, the rain at last came, and the doctor said it would continue Friday and the temperature would continue moderate, but when Salt Lake awakened Friday morning it was winter once more. Hill and valley was ridged with a blanket of pearl and it was getting cold too. There was a decided fall in the temperature Friday and now Dr. Hyatt predicts probably snow and colder. It would seem as though he is trying to hit the mark, but the weather elements appear to be determined that he shall not.

Rain or snow was reported during the twenty-four hours ending Friday night over portions of California, Nevada, Utah, Oregon, Idaho, British northwest territory, Arkansas, Missouri, Louisiana, Florida, Ohio valley and lake region. Heavy precipitation was reported as follows: Los Angeles, 2.66 inches, and Independence, 1.04 inches. Thunderstorms were reported at Salt Lake City, Boise and Chicago. The temperature fell over the Pacific states and plateau, and rose elsewhere as a rule. Low barometric pressure continued over the western states, and high pressure extended over the eastern states.

Rain or snow is indicated for this locality tonight and probably Saturday, and colder tonight, owing to the continued low pressure.

Friday's meteorological record at the local station of the United States weather bureau for the twenty-four hours ending at 6 p. m. was as follows:

Temperature at 6 p. m., 35 degrees; maximum temperature, 39 degrees; minimum temperature, 29 degrees; mean temperature, 34.5 degrees, which is 11 degrees above normal.

Total excess of temperature since the first of the month, 25 degrees.

Total precipitation, .32 of an inch.

Total precipitation since first of the month, 2.43 inches, which is 1.47 inches above normal.

Relative humidity at 6 p. m., 75 per cent.

Temperatures Elsewhere.

LARGE MOVEMENT OF CITY SCHOOL PUPILS

The first semester of the public schools of Salt Lake City will close with the arrival of next Friday and the second semester will begin a week from Monday, and with the end of the first semester and the beginning of the second from 12,000 to 14,000 pupils will move from one class to another. Almost 200 of these advancements will be high school promotions, Superintendent D. H. Christensen says.

With the beginning of the second semester the course will be rearranged so that pupils entering the high school at midyear will not be at a disadvantage in their studies, but will have the same advantages as pupils who entered school at the beginning of the first semester.

Poisons accumulate in the system when the kidneys are sluggish—blisters and bad complexion result—take Hood's Sarsaparilla.

No Rest Day or Night

"I would lay awake for hours without any apparent cause, or dream terrible dreams which would bring on extreme spells of nervousness. After taking Dr. Miles' Nervine and Tonic for awhile I could sleep well, and the nervous spells have left me." MISS ALMA HUG, R. R. No. 4, Canal Dover, Ohio.

Without sleep the nervous system soon becomes a wreck, and the healthful activity of all the organs obstructed. Restful, body-building sleep accompanies the use of Dr. Miles' Nervine because it soothes the irritable nerves, and restores nervous energy. When taken a few days according to directions, the most restless sufferer will find sleep natural and healthful. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

HIGH SCHOOL NOTES

The midyear graduating class of the Lafayette school held a short program Friday afternoon in the "gym" building. Every graduate of that school who is now in high school was present, and Principal Coombs of the Lafayette opened the meeting with a short talk, stating that the gathering was for the purpose of acquainting the students who are soon to enter the school with the line of work taken at high school. An announcement made was that every Lafayette graduate was invited to the dancing party and banquet that will be given January 29. The Lafayette orchestra rendered several selections. The remainder of the afternoon was spent in visiting classrooms.

The cadet band gave a short concert at the close of school. A large crowd of students were present, the Lafayette visitors being among them.

The committee of students appointed for the purpose of organizing the High School congress held a meeting Friday at noon. The constitution was discussed and put in proper shape to present before the students.

PRISON POPULATION IS AGAIN INCREASED

Another high-water mark was established at the state prison Friday. With the arrival of two burglars from Beaver county, the population of the prison was boosted to 298, the largest number of prisoners it has ever contained in its history.

The new prisoners are John Edwards and Joseph Houser, convicted of third-degree burglary in Judge Greenwood's court at Beaver City. Edwards is sentenced to serve two years and Houser to thirty months.

W. J. Robinson of Beaver City, sheriff of Beaver county, brought the prisoners to the state prison.

S. D. Evans, Undertaker and Embalmer, has removed to new location, 48 South State.
